

2025 PXi Series™ Engines

For homeowners who work like pros.

Professional-grade V-Twins.

YOU. POWERED.

Premium power.

The PXi Series V-Twin riding mower engines provide the power, comfort and reliability to handle the big jobs. The enhanced components are extremely durable, and premium air, oil and fuel filters keep the engine running clean to extend engine life. The optional starting technologies provide consistent, automotive-style starting in all weather conditions – simply turn the key and you're ready to mow.

Advanced Debris Management System

- Helps the engine run cleaner and longer by deflecting and ejecting grass and debris.
- Dual seal cartridge-style air filter extends maintenance intervals.

Longer Engine Life

- Full Pressure Lubrication System reduces component wear for enhanced durability.
- Chrome-plated exhaust valves and super finished crankshaft help to reduce friction, and minimize wear.

Easy Starting

- Optional ReadyStart® for Ride Technology provides reliable, no-choke starting in a wide range of weather conditions - from 32°F to 120°F (0°C to 49°C).

Longer
Engine Life†

Limited
Warranty‡

20.0 Gross HP*
(656cc)

22.0, 24.0, 25.0 Gross HP*
(724cc)

* All power levels are stated gross horsepower at 3600 RPM per SAE J1940 as rated by Briggs & Stratton.

† When compared to expected life standards of a Briggs & Stratton EXi Series.
